

PRODUCT FACT SHEET

19MM COLOR LED SIGN AVAILABLE WITH OPTIONAL XVS UPGRADE

The XVS upgrade offers color-calibrated video speed and our sharpest, most lifelike images.

One of Watchfire's best selling models, our 19mm shows amazingly detailed, vibrant images and is manufactured to fit almost any application. Heights and widths are available in increments of approximately 12 inches. The 19mm color technology is capable of displaying incredibly crisp, life-like video imaging, plus all standard digital images. Specify the supercharged XVS upgrade at time of order.

“Our Watchfire LED sign is our number one advertising tool – beating radio and newspaper.”

– Jim & Tina Bricker, Owners of AquaSystems in Warsaw, IN

CONSTRUCTION & ENGINEERING

- Watchfire LED modules are unique in featuring an all-weather full encapsulation in a bed of silicone gel
- Rigorously tested through 180 consecutive days of underwater immersion, 60 consecutive days of salt spray, and temperatures down to -40° F
- Modular design can be scaled to very large sizes
- Long-life 100,000 hour LEDs are up to 90% more efficient than incandescent lamps
- Time, day and date displays (temperature display optional)
- 100% solid state with modular design for ease of service
- All manufacturing is controlled in Watchfire's vertically integrated manufacturing plant in the Midwest, from LED circuit board assembly to aluminum cabinetry. A computerized state-of-the-art facility assures reliable on-time delivery.
- Windowless design (no glare!) that's 40% brighter and easier to maintain than other makes with plastic windows
- Extruded aluminum cabinetry featuring precision mitered corners, solid welds and 30% gloss black polyurethane finishes
- Watchfire signs exclusively feature stainless fasteners
- Electrical: Required service equals 100% of total wattage. Average energy consumption equals about 1/3 of total wattage

“The remarkable results of having our new Watchfire LED sign include greatly improved awareness, visibility, branding and sales results.”

– William W. Zielonko, Executive VP of Midwest Bank Center in St. Louis, MO

The industry-standard Watchfire Limited Warranty covers all sign parts and factory labor on your Watchfire LED sign for a full five years.

IGNITE® GRAPHICS SOFTWARE Exclusively from Watchfire

Ignite is exclusively for Watchfire LED signs. An easy-to-use interface puts the ability to create stunning graphic and video displays within the reach of anyone and dramatically eliminates the headaches associated with sign message software. Instantly preview and schedule messages from your computer so you know what's playing on your sign at all times; no more disappointment when you see your sign.

Within minutes, you are up and running, creating exciting text, graphics, animation and video. As a Watchfire sign owner, you'll have a full range of standard graphics and fonts. You'll also have downloadable graphics, video and art collections from Watchfire available for purchase when you want to customize your sign messages even further. For full custom content services offered through Watchfire's Art Department, contact your sign company or Watchfire representative.

QUICK POINTS

- Edit, schedule and update from just one program
- Use Ignite's step-by-step wizards to effortlessly create and manage content
- Preview your graphics before you run them on your sign
- Import AVI files of custom content created in other software
- Extensive EasyArt library with special collections
- Intuitive, easy-to-use interface
- Training manual included
- Complete staff training and post-installation support

“We love it!”

– Peggy Kroy, Holy Family School in Danville, IL

UPGRADE THIS SIGN WITH XVS

Supercharged LED and Video Display

The XVS upgrade provides tremendous color depth—true National Television Systems Committee [NTSC] colors—and wider viewing angles. The frame rate is increased to full-motion 30-frames per second, equivalent to television. With all this, your sign can have more accurate and deeper color hues, a wider, brighter viewing area, and even run optional live video feed.

- True NTSC color depth
- Faster frame rate
- Wider viewing angles
- Live camera feed option

Visit the Watchfire website to read more about XVS: www.WatchfireSigns.com
